

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Joseph Ottolenghe Garden Lots in Savannah Township—

The Gun-Merchant and the other Indian Chiefs being introduced his Excellency was pleased to give them the following Talk, viz^t

Friends and Brothers

I am very well pleased to see you here and heartily take you by the Hand, I sent for you because it is a long Time since you were here, and if Friends don't meet sometimes their Friendship cools and they are apt to forget one another—

I need not put you that are the Chiefs of your Countrey in Mind of the Treaties made at different Times in the great King George's Name between him and his People and you the Chiefs of the upper and lower Creeks in the Name and Behalf of your whole Countrey; and since often renewed by the respective Governours here and you

down to my Time, Who am also entrusted with the Care of all his Majesty's People both white and Indians in this Province. It is not above two Years and an half since I saw one common Father the great King George from whom I had in charge not to suffer the white People to be hurt, nor the Indians, but that we should be like Brothers, and one People, and if any Difference happened that I should do Justice to both The good old King is since dead, but I have received Instructions to the same Purpose from the young King his present Majesty, he never speaks with a double Meaning, he is always the same, his Talk is heard everywhere and his Subjects spread all over the World, and if ever so remote he will always like a true Father give them Protection and take notice of Injuries done them. He loves to be at Peace with all Mankind making it his invariable Rule to do as he would be done by—

Friends and Brothers

You cannot forget that at the Time when by his Majesty's appointment I took upon myself the Care of his People in this Province. that there was then some Difference subsisting, owing to the frantic and rash Behaviour of some of your young Men who murdered and robbed some of our People in your Countrey. I had no reason to believe nor do I yet think that it happened with the Consent or Advice of you the Head Men because I am well informed that you were the People who put a Stop to that Evil. The Governour my Predecessor informed me fully of those Matters before he went from hence and told me that he rested it intirely with your Selves, that you were well acquainted with the Treaties, that you were a wise People and would doubtless conform to them; I approved of that Measure and am of the same Opinion still.—The Meaning and Intention of those Treaties were for your Welfare as well as ours, you know you cannot

do well without us, but we can do without you ; you have tried the French and you know they can not supply your Wants ; you know the Spaniards also, and if you will cast your Eyes round you you will see that no Indians are so happy or so well supplied as those in Friendship with the English, witness the Chacktaws and many other Nations on the Mississippi, they are more like Slaves than a free People ; look at your young People, your Women and Children and compare them with the Chactaws and other Nations. You likewise have seen and very well know the great Distress the Cherokees have been reduced to by their Misbehaviour and breaking with the English.—The great King George's Orders are that you should have a plentiful Trade from us if you behave well to his Subjects and not otherwise ; and that we should live like Brothers and have but one fire ; and we can pour in Goods upon you like the Floods of a great River when it overflows ; We bestow our Favours on our Friends heartily and without Reserve, this you know to be true which ought and I doubt not does convince you that we are your real Friends—

But on the other Hand if your young People will not hearken to the wise and good Advice of you their great Warriors and Leaders, and observe the Treaties, keep the Peace, and live like Brothers, they will be convinced perhaps, when it is too late, that they have to do with Englishmen, who, though of long forbearance, cannot put up with bad Usage forever—And although your unthinking People may look upon the Inhabitants of this Province as but a few yet they must know that we are in a Part of the great King George's Dominions, and that he will never forsake or neglect his Subjects in whatever part of the World they are, when in Need of his Attention, and that all his white People in the Countries joining are as one People and will always help one another when there is Occasion—

By what I have now said I don't mean to throw Blame

upon you the Head Men, I know your People are not subject amongst you to such Laws as our people are, your Customs are different. I know there is bad People amongst you that are unruly, and we have some bad People amongst us: but I would earnestly recommend to you that are the Chiefs and have the real Interest and good of your Countrey at Heart, to teach and instruct your young People; I for my own Part will observe strictly what I recommend to you, in Order that we may conform to the great King George's Commands and live together like Friends and Brothers while the Sun shines and the Waters run in the Rivers. And if any Difference happens it will be the Fault of your young (mad) People and not ours. And if your People break through the Treaties and use the English ill, the great King George will be angry, and his Warriors will be angry also and take Satisfaction; but on the other Hand while you behave well and are as good Friends to the English as your Forefathers were, our King will hold you fast by the Hand and will not let you go, he will give you the same Protection and take the same Care of you as of his White Subjects. If you are injured or have any thing to complain of, let me know, and I will endeavour to redress you; and if any white Man is injured by any of your People I shall expect the same from you; for you cannot expect that we will observe Treaties if your People break through them. These are Things I thought it necessary to mention to you and sent for you that we might see one another and brighten and renew the old Chain of Friendship and all former Treaties in the Name of the present young and great King George and in my Name as his Governour of this Province; and to the End that we may continue to live in the utmost Peace and Friendship with each other.—

The Gun-merchant made answer that he was sensible of the Treaties that had been made with their forefathers by the white People and handed down to them, which

were that they should live in Peace one with another—That he had received several Invitations to come and visit the Governour and the white People his Friends, and supposed it was to talk of those antient Treaties, and for that Purpose he now came down—That to attempt to improve the Treaties already made would be in vain, but to talk them over and renew them was become extremely necessary for the mutual Benefit of all—That their Head men would do all in their Power to enforce the Observance of them amongst their People; and assured his Excellency that there was no Appearance of any Disposition in them to alter the present peaceable and friendly Temper now subsisting amongst their Nation, as also amongst the Chicasaws, and lower Creeks, for all of whom he would be answerable—That he remembered when the first Fire was kindled on this Bluff and what was then settled and agreed upon by their People and the white People, and would do every Thing in his Power to prevent Disputes or Differences happening—That as to the Mischief that had happened some time ago in their Nation by Means of some of their rash young Men, he did not expect to have heard it mentioned at this Time, nor was it possible for him to answer to it, as his coming down was intirely to see his Excellency—That he thought permitting their People to be in the Settlements amongst the white People was a great Evil, especially as those who come there are generally such as have left the Nation for Crimes, or at least to avoid Controul; that they themselves had tried means to prevent it but could not, and believed that if nobody was suffered to trade with them in the Settlem^{ts} it might have a good Effect—That his not coming down before on the various Invitations sent him was owing to the critical Situation of his Countrey, where the Cherokees employed all their Art and Address to engage them in a War with the English; which he had a very difficult Task to prevent, although he was at length so happy as to effect it—

His Excellency told the Indians, in Reply, that we were also in as friendly a Disposition as their People—That it was necessary to renew our Treaties together as we had a new King—That he knew the Gun-merchant was at great Pains to prevent his People from joining in a War with the Cherokees against the English—

The Talk being ended the Indians with their usual Compliments withdrew—

His Excellency acquainted the Gentlemen that Seleechee and some other Creek Indians were expected in Town with a Spanish Scalp, and desired the Opinion of the Board as to the Reception he should give them; The Board were unanimous in Sentiment that the Scalp should not be received but that the Indians should be kindly used and dismissed with Presents, but not on Account of the Scalp—

His Excellency also acquainted the Board that Captain Alleck an Indian had made a Complaint to him that a Party of Euchee Indians had taken the said Alleck's Wife

Clement Martin Esq^r applied to his Excellency for Leave of Absence being going a Voyage to the West Indies and accordingly obtained the same for nine Months—

ORDERED That the Secretary of the Province do deliver such Laws to the Printer as the Commissioners shall direct to be printed taking his Receipt for the same—

The Matter touching the Govr. of So. Car. granting the Lands to the South of the Alatomaha taken under Consideration and the foll. Protest and Caveat drawn up in Consequence thereof.

The Matter touching the Governour and Council in South Carolina intending to grant Lands to the Southward of the Alatomaha was again taken under Consideration; And his Excellency after observing on so extraordinary Attempt and Proceedure of the said Governour (sic) and Council proposed sending a Protest and Caveat to be served on Governour Boone and entred in the Secretary's Office in Charles Town: Which Protest and Caveat was intirely approved of, and the Board desired his Excellency would forthwith send the same to be served and entred accordingly And which is as follows, viz^t,

GEORGIA To Thomas Boone Esq^r his Majesty's Captain general and Governour in chief in and over the Province of South Carolina; and to all others to whom these Presents shall come or may concern

Protest and
Caveat.

The Protestation and Caveat of James Wright Esq^r Captain general and Governour in chief in and over the Province of Georgia against any Warrants being issued or Attempts made to survey any Lands to the Southward of the River Alatamaha by Pretence or Colour of any Right or Authority from or under the said Thomas Boone as Governour of South Carolina or from or under the said Thomas Boone and his Majesty's Council in that Province: and against any Grant or Grants being passed or signed by the said Thomas Boone for any of the Lands aforesaid to any Person or Persons whatsoever until his Majesty's royal Will and Pleasure shall be known concerning the same—

Whereas his late most gracious Majesty by Letter from one of his principal Secretaries of State dated the tenth Day of June 1758 was pleased to signify his Commands to the Governour of the Province of Georgia that he should immediately give Orders in his Majesty's name to the Inhabitants of a certain Settlement to the Southward of the River Alatamaha, made without his Majesty's Licence or Authority, and called by themselves New Hanover, to remove immediately from thence; and that the said Governour should take all due Care that no Settlements whatever be made without Leave of his Majesty or by his Authority. In the Execution of which Orders the Governour of Georgia was directed to act in Concert with the Governour of Carolina, who had received his Majesty's Commands to the same Purpose—

And although the Reasons which probably induced his

Majesty not to suffer his Subjects to settle the aforesaid Lands may now be thought not to subsist because his Catholic Majesty by the nineteenth preliminary Article of Peace cedes to our most gracious Sovereign all that Spain possesses on the Continent of North America to the East or to the South East of the River Mississippi, yet as the Ratification of the definitive Treaty of Peace between great Britain and Spain, if it has taken Effect, is not notified, It would be premature in any of his Majesty's Governours to proceed as though it actually was notified—

And from the State and Light in which those Lands have been for some Years past considered by his Majesty, to attempt to intermeddle therein until his Majesty's Royal Will and Pleasure be known and his Commands signified thereon it is conceived would be highly improper and contrary to his Majesty's Intention.

Therefore for Preservation of the Rights and Claims of the Province of Georgia in and to the Premises aforementioned against any extraordinary or injurious Attempts of the said Governour and Council of South Carolina, for the Reasons herein before given and many others transmitted to great Britain to be laid before his Majesty I the said James Wright as Governour of the Province of Georgia aforesaid. Do Protest against all or any Attempts whatsoever to survey any Lands to the Southward of the aforesaid River Alatomaha by Pretence or Colour of any Authority from or under the Governour or the Governour and Council of South Carolina And do by these Presents enter a Caveat against any Grant or Grants being passed or signed by the Governour of South Carolina for any of the Lands aforesaid to any Person or Persons whatsoever until his Majesty's Royal Will and Pleasure shall be known concerning the same And in most full and solemn Manner Protest and declare against all Proceedings whatsoever that have already or may hereafter be had or done by the said Governour and Council

in or about the Disposal of the Lands aforesaid as expressly contrary to his Majesty's royal Intention and null and void—

And that no Person or Persons may plead Ignorance of this Protestation and Caveat I do request and demand that it be entred in the Book of Caveats against Grants usually kept in the Secretary's Office in the Province of South Carolina.

In Testimony whereof I have hereunto set my Hand and Seal at Savannah in Georgia the thirtieth Day of March in the Year of our Lord 1763—

“Nation held at the Okchoys 5th Aprill 1763.”

“The Mortar spoke as follows, That it is well known
“both to red and white People the last Treaties made be-
“twixt us; And to put us in Mind of them was the chief
“Purpose of this Meeting—”

“Their Agreement was that this Side of Savannah
“River above Augusta should belong to them but they
“now find it settled all over the Woods with People Cat-
“tle and Horses, which has prevented them for some Time
“from being able to supply their Women and Children
“with Provisions as they could do formerly, their Buffalo,
“Deer and Bear being drove off the Land and killed; That
“this is the Reason of their killing the Cattle they meet in
“these Lands, that they fill their Bellies when they are hun-
“gry having nothing else to do it with—This they are
“afraid will raise a Disturbance ’twixt Us which they do
“not want; they therefore desire the Governour may
“take it into Consideration and clear the Virginia People
“from their Lands, that the Virginia People are only to
“be blamed for any Misunderstandings that have hap-
“pened or may happen hereafter—”

“That he the Mortar has heard the Virginia People
“should say they would not leave those Lands for the
“King’s Talk or the red People’s either, but hopes it is not
“so, and that the King will oblige them to take his Talk
“which will prevent much Mischief that might otherwise
“happen”—

“That their next Grievance is that they are not well
“supplied with Powder and Bullets by the Traders; they
“think fifteen Bags of Powder and Bullets equivalent will
“be sufficient for every Town and hopes it will be sent”—

"That this is the Sentiments of upper and lower Creeks
"and they expect that their Talks will not be thrown
"away"—

"The Handsom Fellow spoke as follows"

"That there are two head Men from every Town in the
"upper Creeks at this Meeting and that what he is going
"to say is the Sentiments of them all"—

"That his Talk is the same as the Mortar's that white
"People were to drink upon one Side of Savannah River,
"and red People on the other, and that this is the Talk
"they still want to hold. That he sees the Virginia Peo-
"ple settled upon a great Part of their Lands which they
"never granted, such as Satilla to the South of Georgia,
"Ogechee, Conutchee, and Savannah River up high; he
"is certain no red People ever granted any Lands in those
"Parts and he therefore desires all these stragling People
"may be ordered off and settle upon the Lands which
"were formerly granted"—

"That he some Time ago had a Conference with Scot-
"haby and Simpoiaphie of the lower Towns and they told
"him the Governour had promised them some Time be-
"fore that as soon as the Cherokee War was over these
"should be sent off, but since the Cherokee War he sees
"they settle more numerous than before."

"That this is a Talk has been long concluded upon by
"them all; they expect an Answer as soon as possible, a
"great many of their People are now below, and they will
"see whether it is complied with or not"—

"A Talk from the Mortar and Gun Merchant at the
Okchoys 8th May."

"The Mortar spoke as follows. That their Name is

Indian Talk
8th May.

"red People and as such they are poor, and we are the People they must apply to in their Necessity. That formerly Lands that white People now live upon were theirs, but now he believes white People have forgot or think they have no Lands belonging to them, as he hears we are going to take all the Lands which they lent the French and Spaniards, and they are surprized how People can give away Land that does not belong to them."

"That when they first saw white People they were much afraid, but in a short Time they made Friends with them, and allowed them some Lands to settle upon, but now he thinks white People intend to take all their Lands, and throw away the old Talks intirely: that it makes their Hearts cross to see their Lands taken without their Liberty. That he knows white People's Physic is strong for War, and he thinks their Head Warriors have strong Physic likewise"—

"That we call them our Brothers, and the French call them their Children, and we tell them to kill French, and French tell them to kill us, but he thinks it a bad Talk from Fathers and Brothers to tell them to handle sharp Weapons as they will be apt to cut themselves"—

"That when the King sees this Talk he may think we are cross and love our Lands a great deal, and so we do, the Wood is our Fire, and the Grass is our Bed, and our Physic when we are sick"—

"That he and his Family are Masters of all the Land, and they own no Masters but the Master of their Breath; but he thinks the White People intend to stop all their Breaths by their settling all round them"—

In Answer to which his Excellency acquainted the Board he had sent them Word that there would be a general Meeting with the Indians in the Fall when all the Matters

they mention, and every Thing else may be talked over and settled; And had also sent up Copies of his Majesty's Instruction, lately received, forbidding any Persons settling upon Lands claimed by the Indians, and requiring those already settled to remove therefrom, in Order that the same may be explained to the Indians; which he thought sufficiently answered the most material Part of their Grievance complained of: And desired the Opinion of the Board whether any Thing further in regard to those Talks was necessary to be said or done until the general Congress which is soon to be held in Obedience to his Majesty's royal Commands?

The Board approved of what had been done and thought nothing further was necessary 'till the holding of the Congress—

Read a Talk from the lower Creeks dated the 15th May 1763 and received by his Excellency on the 18th June last with the Governour's Answer thereto which was approved of, and are as follows, viz^t,

“Lower Creeks Pallochocola”

“May 15th 1763.”

“May it please your Excellency”

Indian Talk 15th
May 1763.

“This Day the Head Men assembled and give your Excellency Thanks for your friendly Talk delivered to them the 14th Instant by the Bearer hereof Nah-“bughche”—

“They say they have no other Thought than to be in “Friendship with your Excellency and all your white “People ever since a drest Buffalo Skin wrote full on one “Side with a Talk of the Cossitah Head Men to the great “King over the great Water as a Token of Friendship “soon after General Oglethorpe came over to Georgia with “a Talk from the great King to them to be at Peace with

“his white People, and for the Children to grow up and
 “be at Peace one with another which they hope will so
 “remain.”

“The 11th Instant the Bearer delivered a Talk that he
 “brought from one M^r Wilson who now lives on or near
 “the Place where the white People was killed and an
 “House burnt in the latter End of last Winter, to get a
 “Permission from the above Headmen to settle a Stock
 “of Cattle or to keep a Store with Goods to deal with
 “Indians; as they will not agree to either they beg your
 “Excellency to order the said Wilson from off the Place
 “for fear of any further Mischief; They likewise desire
 “to have all Out-Stores drawn back to their proper Land,
 “that their People would get Drink of these Traders and
 “lay their Skins out at the Outstores and come home
 “Empty, which causes Disturbance between the Traders
 “and their People; They further beg your Excellency to
 “order a larger Supply of Ammunition, to the Quantity of
 “Six Bags of Powder and twelve of Balls, likewise twen-
 “ty Guns to every Town”—

“Lastly hoping your Excellency will take it into Consid-
 “eration (of an inconsiderable Value to your Excellency
 “but great to them) One Bag of Powder and two of Balls
 “to each Town to be shared among the old People, and a
 “great Coat to each beloved Man that walk or ride to hear
 “& give Talks, as some have a good Way to go; and for
 “the Traders to bring these Things upon their Pack-
 “Horses. Wherein they conclude your Friends and
 “Brothers. I am your Excellency’s

“obedient and very humble Serv^t”

“P. S. Please your Excellency as “JNO SALLER”
 “the Bearer was here when this was
 “written he can inform your Excel-
 “lency of every Particular”—

GOVERNOR AND COUNCIL

His Excellency's Memorandum and Answer—

“Memorandum. The Indian who brought this Talk said he was ordered to tell me that the French and Spaniards said a great Number of English Troops were landed at Pensacola, Mobile &c and that they were to go away from those Places: And that the Designs of the English were to surround the Indians and punish them for their past Misbehaviour and to make them tame. And that he was sent down to me to know whether these Things were true, and whether it was to be Peace or War between the white People and the Creeks &”

“To which I answered as follows in Writing, viz”

“The Governour of Georgia to the Head Men of the lower Creeks in answer to their Talk of the 15th May and their Message by Nahbughche”—

**His Excellency's
Answer.**

“The Indians may depend that every Thing on the Part of the white People is as usual, and that although the great King George has thought it necessary to compel the French and Spaniards to remove from S^t Augustine, Pensacola, and Mobile &c and that those Places will very soon be delivered up to the English, yet it is not with any View or Design to hurt the Indians, as the French and Spaniards falsely and maliciously tell them, but it is for their Good and Advantage, and in Order to prevent the French and Spaniards from giving any more bad Talks, and making Mischief between the white People and the Indians”—

“That about the Fall will be fixt for a Meeting and Talk with the head Men of the Creeks and some others, of which the Governour will give them sufficient Notice, when every Thing may be talked over and settled; And in the mean Time they must not mind the false and groundless Reports they hear from the French and

"Spaniards but look on the white People as their best and
 "only Friends, and that they will always continue to be
 "so"—

Order that no
 Plats or Fiats
 or Grants be
 prepared of any
 Lands claimed
 by the Indians.

His Excellency observed to the Board that his Majesty
 by his royal Instruction had commanded "Not to pass any
 "Grant or Grants to any Persons whatsoever of any
 "Lands within or adjacent to the Territories possessed or
 "occupied by the Indians, or the Property or Possession of
 "which has at any Time been reserved to or claimed by
 "them." And therefore Ordered that no Plats should be
 certified or Fiats or Grants prepared for any Lands above
 Augusta, or about Buck Head, or for any other Lands
 supposed to be within the Description Intent or Meaning
 of his Majesty's said Instruction, until further Orders:
 And directed that the several Officers concerned should
 have a copy of this Order that they may govern them-
 selves accordingly—

His Excellency laid before the Board a Talk he had
 yesterday received from the King or Chief of the Chero-
 kees, which is as follows, viz^t

"Chota May 21st 1763"

"Brother

Talk fm the
 Cherokee King.

"I was always wont to make my Talks to Virginia but
 "now I design to send this one to you, and as you are
 "Governour of Georgia and I of the Cherokees, I hope to
 "be heard; And now I have got all the Confirmations of
 "Peace in my Hands and I will hold them while the Sun
 "shines in the Skies, as I got them from the Governour
 "of Virginia so I will keep them, and am glad to see the
 "white People here; and now I design to pay you a Visit
 "about the Fall, only as your Brother, coming to see you
 "and the Councillors, and then I will have a Talk with

“you: And as you have every Thing that is necessary for
 “Us, and we have nothing, I design to talk with you
 “about a Trade. I was the only Man that, having took
 “Pity upon our Women and Children which would have
 “been all cut off had the War continued, went and got Let-
 “ters from all our Towns to Colonel Byrd of the Virginia
 “Regiment, and went and made Peace with the white
 “People, and now I have taken the bloody Hatchets which
 “were all painted ready for War and have buried them
 “all under the Ground so as they will never be taken up
 “again: And now I have made the Path strait and clear
 “from Virginia and I will do the same from you and there
 “shall never be a Trader hurt while Water runs; and
 “there have been some of our People over the great Water
 “to King George and have made a clear Path all the Way.
 “And now I begin to talk for three of our Towns that
 “have no Trader to supply them with Goods, and I wish
 “you would consider of sending a Trader to them; And I
 “shall think myself very well pleased if you like this and
 “will please to send me an Answer; and I have sent two
 “men to you with this Letter which if you will please to
 “receive in a friendly Manner and use them well it will
 “much oblige your Friend and Brother.”

“OCONASTOTA”

“King and Governour of
 “the Cherokee Indians”

P. S. “And as a Confirmation of what I
 “have said I have herewith sent you
 “some white Wampum”—

The Govr's Ob-
 servations
 thereon.

On which his Excellency observed on the Inconven-
 iences and great Expence that would probably attend an
 Invitation to the Cherokees to come to Savannah who
 might afterwards frequently repeat their Visits; And also
 that he was of Opinion it was not proper at this Juncture
 to encourage or open a Trade from hence to the Chero-
 kees: And proposed by Way of Answer to the said Talk

to acquaint the Cherokee King of the Congress intended to be held, when he should see him and might then talk further on the Subject of his Message—All which the Board approved of—

Advise with
the Board
whether proper
to restrain the
Traders from
sending too
large a Supply
of Goods to the
Indian Nation.

His Excellency also acquainted the Board that he had received a Letter from Colonel Barnard at Augusta informing him that a very considerable Quantity of Goods had been and was now preparing to be sent from thence to the Creek Countrey; and desired to have their Advice whether it might be proper at this critical Juncture to restrain the Traders and direct them only to send up a moderate Supply of Goods 'till after the intended Congress. On which the Board was of Opinion that it would be proper to restrain the Traders and advised his Excellency to give orders accordingly—

His Excellency the Governor acquainted the Gentlemen that he had convened them at this time in order to take a view of the State of our Indian affairs; telling them that so long ago as the month of June last, in Consequence of Letters then received from one of his Majesty's principal Secretaries of State, a Congress with the different Nations of Indians, and the Governours of the several Provinces of Virginia, North and South Carolina, and Georgia, and his Majesty's Superintendent of Indian affairs, was agreed to be held at Augusta in this Province on the fifteenth day of this Month October, and that the same had been accordingly notified by his Majesty's Superintendent of Indian affairs by Letters of Invitation

The Govr. acquaints the Bod. that he had recd. a Letter fm the Govrs. of N. and S. Cara. informing him that the holdg. the Congress had been altered in respect of the place heretofore appointed for that Purpose.

to the several Nations to meet at Augusta on that day, as the said superintendant by Letter of the fourth of July last acquainted his Excellency; and for which place his Majesty's Presents for the Indians several days past went from hence: That notwithstanding these proceedings and Preparations his Excellency had received a Letter from Charles Town South Carolina on Saturday last dated the 5th instant and signed by the Governors of North and South Carolina and Virginia, and M^r Stuart the Agent informing him that their conversing upon the subject of the future Congress had occasioned an Alteration of the place of meeting and that the Indians would be ordered down to Dorchester in South Carolina, and that the Superintendent of Indian affairs would set out for Augusta on the Thursday following in order to meet the Indians there and signify the same to them and the reasons for ordered them down with him to Dorchester,—His Excellency observed that although he had always been of opinion it would be most for his Majesty's service, and the good End proposed, that the Congress should be held at the first appointed place, yet being determined that no Impediment to the Business should arise through him, he had wrote an Answer to the Letter on the Same Day he received it, and by the same Messenger who brought it, acquainting the Governours that when they were pleased to inform him of the Time of holding the Congress he should certainly attend if health permitted: But his Excellency further observed to the Board that as it was possible the Jealousies and suspicions of the Indians, by this Suddain Alteration of Time and Place after so solemn an Invitation, might prevent their going down to Dorchester, It seemed to him a Matter of the utmost Consequence, affecting his Majesty's Service in general, and the Welfare and Safety of this Province in particular, should they refuse to go further, and return back Home from Augusta dissatisfied; And therefore his Excellency intreated the Gentlemen seriously to weigh the matter and

And what Steps he had taken thereon and whether any thing further was necessary.

The Bod. approved what his Excellency proposed and shod. the Indians refuse, to go to the newly appointed place advised his Excellency, to meet them at Augusta.

give him their candid Opinions and Advice on this critical occasion, and whether any means could be fallen upon to prevent the Indians returning disgusted in Case they should refuse to proceed any further than Augusta, and what steps were necessary to answer that End; At the same time proposed writing to Lieutenant Barnard and Mr George Galphin at Augusta to assist the Superintendent with their Interest and Influence with the Indians in persuading them to go Down to Dorchester agreeable to the late Resolution of the Governours Signified to him The Board on Mature Deliberation approved the Measure pointed out by his Excellency of writing to Mess^{rs} Barnard and Galphin to Assist in endeavouring to prevail on the Indians to go Down to Dorchester as highly eligible And were unanimous and clear in Opinion that should the Creek Indians refuse to go down to Dorchester or Charles Town and return back from Augusta displeased at this critical Conjuncture it might be productive of the worst Consequences to his Majesty's service in general and to the safety of this Province in particular. And therefore, in order to prevent, if possible, the Dangers that may attend their returning disgusted, advised his Excellency, in case they should refuse to proceed any further to meet them at Augusta, as the best if not the only method to prevent further misunderstandings with them, and to promote his Majesty's most gracious Intentions, and establish Peace and Friendship with them on a more firm Basis—

His Excellency informed the Board that since the Receipt of the Letter from Lieutenant Barnard of the 28th of December last with Arthur Coody's Affidavit relative to the Murders committed at long Canes Settlement in South Carolina, which the Members had before been made acquainted with, he had received Letters from M^r Galphin with a Talk from the Young Twin; all which Letters and Papers were read and are in Substance as follows, viz^t

S^r

Late last Night arrived at my House Elijah Brazeal

Lieut. Bar-

cerning the
Murders at
long Canes.

from long Canes Settlement in Carolina and acquainted me that a Party of Creek Indians came near that Settlement Saturday last, and had actually killed fourteen white People: but as he would not give me the Particulars upon Oath I suspended my Judgment till this Morning when one Arthur Coody arrived and gave upon Oath a more full Account of the Affair by which I am pretty certain of the Truth of it, and therefore, Sir, have thought it absolutely necessary to acquaint your Excellency of the Matter by Express: I have inclosed Coody's Affidavit, he proposes going off for the Cherokee Nation in about ten days, he seems fully convinced of the readiness of those to join the White People against the Creeks, and even says that they seem determined to break with the Creeks whether the White People revenge these Insults or not, about eight Days before the White People were killed the Cherokees lost one of their People and charge the Creeks with it; for my own Part I am persuaded that some Dependence be put in the Cherokees if any Occasion, for as they have felt the Strength of the white People and have been thereby brought into great Distress; they would wish to see the Creeks in the same Situation. I am somewhat surprized at their taking but one Scalp of the fourteen at

long Canes: whether or not they will proceed any further a short time will shew: the Out Inhabitants are all flocking into the Forts: what we are to do with the Women and Children and how to Support them I know not their Fright and Hurry will drive them in without Provision or any other Thing to support them; however we must do the best we can and endeavour to get into the Forts as much Provisions as possible—

**Abstract of
Mr. Galphin's
Letters concern-
ing the
Murders.**

M^r Galphin in his Letter to his Excellency dated the 5th January 1764 says that he set out in order to go to an Indian Camp about Twenty Miles from his House to get what Information he could concerning the Murder of the White People and by whom done—That about ten Miles on his way he met ten Creeks with about twenty or thirty Women and Children going to his house for Corn—That he informed them of the Murders at which were surprized and said it could not be any of their People without their knowing it—M^r Galphin then Acquaints his Excellency that in his Way he also met with a very trusty Fellow whom with one of the Traders he sent off to a Place called the great Buffalo Lick where it was expected to find a Number of Indians that they would return in six days and his Excellency should then know what Account they brought if of any Consequence—M^r Galphin proceeds to give Reasons why he thought the Murders were not done

by the lower Creeks viz^t Their going away so well pleased after the Congress—That above twenty Fellows had left their Presents at his House—And their bringing their Women and Children out with them in Hunting—He says that some people think the Mortar had done the Mischief He himself thinks the Cherokees had a hand in it and perhaps some Villains of the Creeks along with them—

M^r Galphin in his Letter to his Excellency dated the Eighth of the same Month again Mentions his having sent out an Indian and a Trader to see if they could find out the Indians who had done the Murder: And tells his Excellency that about fifty Miles along the Hunting Path they met the Young Twin and another Fellow coming in to Acquaint M^r Galphin of the Persons who had killed the White People, and also to get him to write out a Talk from the Young Twin to his Excellency which he incloses and is as follows

The Young Twin's Talk inclosed in M^r Galphin's Letter—

Tugulker's
Talk sent the
Governor con-
cerning the
same.

As soon as I was acquainted in the Woods who the Persons were that had killed the White People I came immediately to Acquaint my Friend Galphin of it that he might write down and Acquaint both Governours and the beloved Man of it, and I have left this Talk with him to send down—

The Fellows that have done the Murder are seven that have been among the Cherokees these four or five Years and helped them against the White People—The People are all going home by the Time this Moon is gone they will be all at Home. and there we shall have a Meeting of all the Heads of the Nation and before the next Moon is done you shall here from us, We hope this will not make a

(sic)

general war if the Murderers can be killed. there is two of my own Towns People concerned in it all the Head Man are much concerned about it, and hope it will be Strait yet, And I desire that you will be upon your Guard on this River for they say they have taken the Cherokees Talk, and that they will kill the White People where ever they find them. And in Case any of your People come up with them we hope they will kill them There were three of our People came up with them and were going to kill them but they were an Overmatch for them, and they went in Search of Abraham and his Gang to help them They dare not go to the Nation for they say now they must be killed and they will do all the Damage they can before they are killed: it is the Talk of the Head Men in the woods to forewarn any of the Young People to join them. They say it is the young Warriors Talk of Istatoe and if he is not concerned he will order his People to kill them: and it is my Desire that you will write down and have them killed as they harbour in his Nation and have Wives there—

The Govr. acquaints the Board what he had done in consequence of the foregoing Advice and desired their Opinion whether any Thing and what was further necessary to be done.

After which his Excellency observed that this Affair had proved to be as he at first apprehended it would and as he before had acquainted the Board was his Opinion of it; that he was always very clear it was not a concerted Measure but done by Straglers and possibly promoted by the Cherokees with a View to involve us with the Creeks that on Receipt of the first Account he had Immediately sent the proper orders to the Militia officers and put the People in general on their Guard which was all that seem-

ed at that Time necessary to be done ; And as the Fact now appears from the Information of the Twin, his Excellency thought it would be proper for the Superintendent to State the Matter to the Creek Nation and make a Demand of Satisfaction in his Majesty's Name agreeable to the third Article of the Treaty lately made at Augusta : but this he supposed would be done from Carolina as the Murders were committed in that Province and the People killed were Inhabitants there : And his Excellency showed the Board a Letter he had wrote to Governour Boone on the Subject And desired their Advice and Opinion on the whole Matter, and whether or not it was advisable to Stop the Trade to the Indian Countrey till he heard from the Nation concerning the Affair : and whether any other and What Measure was necessary to be taken in this Province that had been Already. Whereupon the Board was clearly of Opinion that the regular Measure to pursue was a demand of Satisfaction agreeable to the third Article in the late Treaty but that such Demand could not properly be made from this Province but would with more Propriety go from South Carolina as the Offence was there committed and the People murdered were Inhabitants of that Province ; And that they did not think it advisable to Stop the Trade, or that any other Measures or Steps were necessary to be taken here than had been already pursued—

His Excellency the Governour communicated a Talk he had received from the Upper Creek Nation in Answer to the Superintendants Talk to them touching the Murders lately committed at the long Canes Settlement in South Carolina which was read and is as follows viz^t

An Answer from the Wolf and a few of the Head Men of the upper Creek to Captain Stewart's Talk—

Talk from the upper Creeks relating to the Murders at the long Canes. The Meeting that we had at Augusta we had not forgot the Talk we like it very well. What there is hereof the upper Towns and the Tallipooses say they will hold the English by the Hand when we were down the lower Creeks would not let us speak a Word as for our Part we stand to the same Talk. We hear the Talk that Came up and seems to us like a dream a Talk came to the Wolf from below and likes it very well The Talk that was sent from below it is bad to be sure but I hope it is not all over the Nation—it was bad here once—it was not the Head Men killed them but a Parcell of young Fellows who were forgiven at the Meeting and we were glad of it. there were all Nations gathered together and heard the Talk and were very glad to hear such good Talks—And Just after we came up we had a bad Talk that some of the Runagadoes killed the White People on Savannah River

the Upper Towns and Tallipooses know nothing of this Mischief nor had any hand in it—the lower Towns they are the People that made the law and they the first that begin and if they kill the Murderers we expect the Path will be Strait once more—We have nothing to say to the lower Towns: the Murderers we hear are come into the Nation—The upper Path is very bad and we hope that the Path will be Stopt and the Grass grow upon it, and if you will supply them you must supply them another Way they say that you all below and above know that the Path will be very bad for the Murderers will scatter and do more Mischief—Our Talk is for the White People that are out Settlers to keep together in a Body for the Wolf is afraid that they will be upon them again Maybe you may think that we will join the lower Creeks but this is to let you know that we have Nothing to say to them. We desire an Answer from you if any Body will come — John Proctor he that was Linguister for the Agent was Linguister here — In Presence of

Talk from the
lower Creeks
relating to the
Murders at the
long Canes.

What few of the Head Men are in the Two Towns have taken your Talk but as their People are not all come in they can do nothing as yet but beg that you will give them a little Time and they will give the great King Satisfaction for what has happened The Cussita White King's two Sons are two of them that have done the Murder and he says they shall die Tolligeha and the Cussita white King stand up that Satisfaction shall be given as soon as the Warriors come home — The Cussita White King and Tolligeha keep the White People in their Hot House for fear of Danger and they hope that the great King won't desire Satisfaction of them two—all the Head Men in the Nation stand to what they said when they were down — Tolligeha never thought the day would come that such a thing would have happened when he Talk with you at Augusta They hope you won't be cross with them and they will have it made up, the Coweta King is for the same Friendship as he says it was done unknown to him by some Runagadoes to the Mountains—all the Heads of the Town are not come in, so they send this to let you know how Things are but you shall soon have another Talk Tolligeha was down and heard your Talk and you shall hear from him or see him soon at Augusta: the Cussita white King and the Scotch man they say they will give Satisfaction as soon as possible: they say they can't till March and then they hope all will be strait—And so they remain your ever Affectionate Brothers

Hendrick } On a Caveat entred against a Grant pass-
ag^t } ing to William Williamson for a Tract of
Williamson } Land at a Place called Cawston's Bluff.

Order of his Excellency the Governour in Council

The Case on hearing and Proofs appeared thus, viz^t, That on the sixteenth of November One thousand seven hundred and fourteen Two hundred and forty three Acres of Land, Part of the Premisses in Dispute, was surveyed for John Hendrick; And that on the tenth of Aprill following a Grant was signed for the same by his Excellency Charles Craven Esq^r then Governour of South Carolina: John Hendrick the Grantee lived 'till towards the End of the Year 1738 and then died—On his Death the Lands are said to have descended to William Hendrick as his Son and Heir at Law—William Lived 'till November One thousand seven hundred and forty nine and then died leaving Issue a Son and a Daughter—And in October One thousand seven hundred and sixty three William Hendrick the Grandson of the Grantee died under Age and

without Issue; and now the Sister claims the Premises under the above Grant: And it appeared that neither the first Grantee, nor any other of the Hendricks, or any Body for them, ever settled or improved the Premises, or any Part thereof, or made any Claim until August One thousand seven hundred and sixty three being about forty Eight Years—

On the other Hand it appeared upon Oath and by the Records that Cawston, under whom Williamson claims, obtained a Right from General Oglethorpe and the Trustees for these lands in the Year One thousand seven hundred and thirty three; that they were then unsettled and unimproved; and that Cawston settled and improved the same at a very considerable Expence by clearing planting and building a very good dwelling House, Barn, Stables, Outhouses &c—

That a Notice being published in the Year 1740, by Order of the Trustees, in the London Gazette and other Public Papers, requiring all Persons holding or claiming Lands in Georgia to exhibit their Claims; a regular Claim to the Premises was exhibited in Behalf of Cawston and admitted—

That in the Year One thousand seven hundred and fifty four after the Arrival of Governour Reynolds Notice was again published for all Persons claiming Lands to exhibit their respective Claims before the Governour in Council; when a Claim was exhibited in Behalf of Williamson and allowed of—

That in the Year One thousand seven hundred and fifty Eight an Act was passed here, and published and notified in all the Colonies, and in great Britain and Ireland by which Persons claiming Lands in this Province and residing in England &c were allowed three Years to make good their Right, and if Inhabitants of South Carolina

Eighteen Months. That within the said three Years a Claim was again lodged for the Premises in Behalf of Williamson which was allowed; but it was thought proper that no Grants should be signed for any Persons claiming until the Expiration of the said Term of three Years, that it might be known whether any different Claims were made to any Tract or Tracts of Land; And that after the Expiration of the said Term viz', on the Tenth Day of March One thousand seven hundred and sixty one a Grant for the Premises was actually ordered to be prepared and signed to the said Williamson—

It also appeared upon Oath that the said Cawston and those claiming under him have remained in full quiet and uninterrupted Possession of the Premises for about Thirty Years past, without any Claim or Demand on Account of the Premises from Hendrick or any other Person whatsoever—

Wherefore on considering this Matter his Excellency was of Opinion that Hendrick's Claim ought not to be allowed and rejected the same accordingly

—The Deposition of Noble Jones touching this Matter to be inserted—

His Excellency laid before the Board an Extract of his Letter of 22^d February last to M^r Stuart Superintendant of Indian Affairs; also a Letter dated 7th March last, which he had received from Governour Boone of South Carolina; with his Excellency's Answer thereto; all relative to the Murders committed by the Creek Indians at the long Canes in South Carolina: together with such other Intelligence as his Excellency had received on that Subject; And desired their Opinion thereon which Extract and Letters are as follows, viz'

Extract of Governour Wright's Letter to the Superintendent

"22^d February 1764"

"I don't know what Messages or Demands may have gone to the Creeks from you or Governour Boone but it is very clear to me that this Affair must not be put up with or passed by"—

"If a general Resolution was taken to stop the Trade from every Quarter, this, together with such other Annoyance as may be given them without much Difficulty or Expence; I imagine would soon bring them to a Compliance, without other Measures. But the People are not yet returned from their Hunt, they will not all be in 'till the Middle or End of next Month, so that their final Answer or Resolution cannot be known 'till some Time after that, and the Traders will require previous Time to withdraw their Effects &c."

Governor Boone's Letter to his Excellency—

"Charles Town S^o Carolina March 7th 1764"

"Sir"

"The Answer sent by the Creeks to the Superintendent's Talks, on the Murders committed since the Congress in the long Canes Settlement, are so trifling and unsatisfactory that it appears to me highly expedient that some more effectual Step should be taken to bring this insolent Nation to Reason; upon a Supposition that what has, might happen, I some Time ago proposed to the Commander in chief in America such a Correspondence on Indian Matters, and such a Concurrence in Measures also, with the Officers commanding the Posts in the two Floridas as I apprehended would be productive of the very best Effects to all the Provinces

"having Intercourse with the same Indians, and he ap-
 "proved so much of my Proposal as to direct the re-
 "spective Officers accordingly. Now I am firmly of Opin-
 "ion that an absolute Restraint on the Creek Trade would
 "soon procure that Satisfaction for the Outrages done
 "Us, which is, and ever will be denied I am afraid, to
 "Talks and Expostulations; while sitting down tamely
 "under the Provocations and Injuries we so frequently
 "received can only conduce to the Repetition of them.
 "Should you be of the same Opinion and will concur with
 "me in not only restraining the Trade from our two Prov-
 "inces but in requesting also the respective commanding
 "Officers of S^t Augustine, Pensacola, and Mobile, to stop
 "it in their Commands, it cannot I think be denied by
 "them; and if you will write to this Effect, and send it me
 "by an Express (whom I will pay) I will dispatch your
 "Letters, with mine on the same Subject, by some Oppor-
 "tunities which offer very soon for Mobile and Augustine.
 "And if you think proper to let me have a Copy of your
 "Letter to the commanding Officers, that I may write as
 "conformably as possible, I will transmit you a Copy of
 "mine by the Return of your Express—

"I leave the Day, when the Prohibition shall take place
 "to you and am Your Excellency's most obed^t humble
 "Serv^t

"THO^s BOONE"

His Excellency Governour Wright's Answer to the
 aforegoing Letter—

Savannah in Georgia 21st March 1764

"Sir"

"Your Letter of the 7th Instant I received by Captain
 "Stuart on the 17th; and although the Answers in general
 "hitherto received by him are rather unsatisfactory, yet it

“appears from the Answer of the lower Creeks of the
“11th of last Month that their final Resolution could not
“be taken or entred into until all the Head Men were re-
“turned from Hunting: And they acquaint M^r Stuart
“that he shall then hear from them again, and expressly
“say “They will give the great King Satisfaction for what
“has happened” And altho’ the final Answer or Determi-
“nation of the Indians may possibly prove as unsatisfac-
“tory as the former, yet I conceive it should be first had
“With Respect to what you have proposed to the Com-
“manding Officer relative to a Correspondence on Indian
“Affairs, as you have not thought proper to mention the
“Particulars I can say nothing; but I received a Letter
“from Colonel Robertson dated at S^t Augustine the 25th
“Sep^r in which he acquaints me that among the Instruc-
“tions he received from General Amherst he had one to
“correspond with me.”

“The Measure of putting a total and effectual Stop to
“the Creek Trade will certainly be proper if we cannot
“obtain Justice without; and this Measure is exactly
“what I mentioned in a Letter to Captain Stuart of the
“22^d February, and which I understand was communi-
“cated to you; but although this was and is my clear
“Opinion yet it’s a Matter that I apprehend ought not to
“be too hastily done, for it is very probable it may bring on
“a War; as I conceive the Indians will either comply with
“our Demand, or be enraged and very soon begin to com-
“mit Hostilities, and if the latter, this Province is near-
“est, weakest, and most exposed to their Rage: for which
“Reason I think it will be necessary for me previously to
“know whether any Assistance may be expected from
“General Gage, I fear not, but think it my Duty to state
“the Matter clearly to him before I take a Step which may
“bring on a War. I should also know what Part your
“Province and the other neighboring Provinces will take
“in that Event, and I think Governour Dobbs and Gov-

“ernour Fauquier should be wrote to on the Occasion ; and
 “the Answers or Resolutions of the military commanding
 “Officers of the two Florida Governments should also be
 “known : for if they should not agree to cooperate and re-
 “strain or put a total and absolute Stop to all Trade with
 “the Creeks, and to supply the Choctaws sparingly, so that
 “every Channel of Supply may be stopt, and they may not
 “have it in their Power to get any Thing either from
 “white People or Indians ; our restraining it from our
 “Provinces would rather be injurious than Salutory. And
 “as this is a Point which may, in it’s Consequences, be
 “tantamont to a Declaration of War, I shall not determine
 “upon it until I first lay the Matter before his Majesty’s
 “Council, and know their Sentiments thereon ; and which
 “I shall take an early Opportunity of doing”—

“Unless the Indians by further Outrages oblige Us, in
 “all Events, to endeavour to force this Measure without
 “Delay, I think it should not be done yet ; and though our
 “Sentiments are the same, as to the Thing to be done, yet
 “a Difference in Place and Circumstances may make a
 “Difference, in Opinion, as to the Time when : Your
 “Province is populous and opulent, compared with this,
 “and therefore, on my Part, every Precaution is necessary ;
 “However, that no Time may be lost, in Case the Measure
 “should finally be resolved on, I shall send a Letter to
 “Major Farmer at Mobile by a Vessel which, I am told,
 “goes from hence next Week, and have inclosed you the
 “Substance, agreeable to your Request ; I have also dis-
 “patched one for the Commanding Officer of S^t Augus-
 “tine by Land.”—

“I am your Excellency’s most obed^t humble Serv^t”

“JA : WRGHT”

The Board having taken under Consideration the sev-

eral Papers laid before them by his Excellency, together with the different Intelligence received Of Indian Affairs, are clearly of Opinion that until a national and general Answer is given to the Talk sent up to the Creek Nation by his Majesty's Superintendant, since the late Murders, the Measure proposed by Governour Boone, of immediately stopping the Trade, will be highly improper; And even should that Answer be evasive, or a Denial of Satisfaction, that, the present defenceless State of the Province considered, it will be equally imprudent to take such a Step, the Consequences of which may be a War with those Indians, until we have some Certainty of Assistance, as well as that the neighboring Provinces, who are equally interested with this, will cooperate—

RESOLVED That on Condition &^e the Prayer of the said Petition is granted—

Read a Petition of Joseph Jaquet setting forth that he was lately come from Pensylvania with Intention to look for a Tract of Land sufficient to make a convenient Settlement for himself and about Thirty Families consisting together of about two hundred and forty Persons who purposed removing into this Province if they could be accommodated with Land That the Petitioner had been to

view some Land on Turtle River to the South of the Alatomaha River which he thought would answer the Purpose And further setting forth that the Petitioner had served his Majesty as Captain of a Company of Batteau Men or Rangers for the Campaign in North America in the Year 1758 under General Abercrombie as by his Commission ready to be produced and hoped he was thereby intitled to his Majesty's Bounty of Land as a Captain agreeable to his royal Proclamation Therefore praying for a Reserve of Twelve thousand Acres of Land including a Place called the Buffelo Swamp on the said River for sixteen Months in which Time he with the Families mentioned purposed coming and when granted, to settle and improve the same And also praying for three Thousand Acres to be laid out for Petitioner, as a Captain, at a Place to be fixed upon on his Return to the Province

ORDERED That the Prayer of the said Petition touching the three thousand Acres, as Captain, be rejected, the Petitioner not being within his Majesty's royal Proclamation And as to the Reserve prayed for of Twelve thousand Acres Ordered that the Consideration thereof be postponed to a further Day as no Reserve can be made where mentioned as those Lands are said to be already run out by, and granted to, People in South Carolina and it is unknown at present what will be the Fate of those Grants—

ORDERED That his Majesty's Grant for a Town Lot in Savannah Number nine in Frederic Tything Darby Ward allowed unto Miss Ann Heron on her Claim before the Governour in Council on the Eighteenth Day of September 1759 Do pass in the Name of Noble Wimberly Jones the Younger by purchase from the said Miss Heron: And that the Surveyers general do prepare and certify a Plat thereof accordingly—

Agreeable to the Power vested in his Excellency the Governour in Council in and by a late Act of the general Assembly of this Province passed to prevent Inoculation for the small Pox in Savannah It is Resolved That Permission be given to all and every Person and Persons whatsoever Inhabitants of the said Town of Savannah or living or residing within the Limits mentioned and described in the said Act and to such other Persons as actually have Lots and Houses in the Town of Savannah or within the Limits aforesaid and who some Times reside there though more frequently in the Countrey to inoculate or be inoculated for the small Pox from and after the last Day of this Instant August And that the same be notified by Proclamation—

His Excellency took Notice that the Licences given from this Province for the Indian Trade would be very shortly renewed; and observed to the Board that the Regulations heretofore made relative to that Trade he thought were incompatible with his Majesty's late Proclamation, and laid the said Proclamation, together with a Letter from the right Honourable the Lords of Trade requiring his exact Obedience thereto, before the Board: His Excellency also observed that he was very apprehensive so general a Trade amongst the Indians might be productive of Consequences injurious to his Majesty's Service, and the Province, yet thought himself obliged to adhere to the royal Proclamation. And desired the Sentiments of the Board on the Matter propounded—

The Board after mature Deliberation unanimously and intirely agreed with his Excellency that strict Obedience should be paid to his Majesty's royal Proclamation; but at the same Time requested his Excellency (with all Deferece and Resignation to his Majesty's Pleasure) to remonstrate in the strongest Terms the Necessity of a more limited Plan or Regulation for conducting and carrying

on that Trade as well to prevent Abuses on the Part of the Traders, as to preserve good Order amongst, and promote an Interest and a proper Understanding with, the Indians—

Two public Accounts particularly provided for in the present Tax Law were laid before the Board, audited, entered in the Book of Accounts kept for that Purpose and ordered for Payment—

His Excellency the Governour signed the following Grants, viz^t,

To Thomas Burrington 100 Acres in S^t George's Parish—

Anne Fitch— $\left\{\begin{array}{l} 500 \text{ Acres in Christ Church Parish—} \\ 100 \text{ Acres in S^t Matthew's Parish—} \\ 100 \text{ Acres in S^t Georges Parish—} \end{array}\right.$

Memorial of
Rev^d. Mr.
Whitefield for
Land to endow
a College read.

Read a Memorial of the Reverend George Whitefield Clerk setting forth that about twenty five Years Ago, the Memorialist assisted by the voluntary Contributions of charitable and well disposed Persons, at a very great Expense and under many Disadvantages. Did erect a commodious House with necessary out-Buildings suitable for the reception of Orphans and other poor and deserted Children and that with repair of the Buildings, Purchase of Negroes, and supporting a large Orphan Family for so many Years, he had expended upwards of Twelve thousand Pounds Sterling, as appeared by the Accounts which from Time to Time had been audited by the Magistrates of Savannah. That since the Commencement of this Institution he had the Satisfaction of finding that by the Money expended thereon, not only many poor Families were assisted, and thereby kept from leaving the Colony in its infant State but also that a considerable Number of poor helpless Children had been trained up who had been and were then useful Settlers in this and the other neighbouring Provinces That in order to render the Institution aforesaid more extensively useful the Memorialist as he perceived the Colony grad-

ually rising for some Years past, designed within himself to improve the original Plan by making further Provisions for the Education of Persons of superior Rank who thereby might be qualified to serve their King, their Country and their God either in Church or State That he did with inexpressible Pleasure see the present very flourishing State of the Province but with concern perceived that several Gentlemen had been obliged to send their Sons to the Northern Provinces who had much rather have had them educated nearer Home, and thereby prevented their Affection being alienated from their native Country and also considerable Sums of Money from being carried out of this into other Provinces. The Memorialist further observed that there was no Seminary for Academical Studies as yet founded Southward of Virginia, and consequently if a College could be established here (especially as the late Addition of the two Floridas rendered Georgia more central for the Southern District) it would not only be highly serviceable to the rising Generation of this Colony, but would probably occasion many Youths to be sent from the british West India Islands and other Parts The many Advantages accruing thereby must be obvious to all. From these Considerations the Memorialist was induced to believe that the Time was now approaching, when his long projected Design for further serving this his beloved Colony, should be carried into Execution That a considerable Sum of Money was intended to be laid out in purchasing a large Number of Negroes for the further Cultivation of the present Orphan House and other additional Lands, and for the future Support of a Worthyable, President, Professors and Tutors and other good Purposes intended— Therefore praying for in Trust for the Purposes aforesaid Two thousand Acres of Land on the North Fork of Turtle River called the lesser Swamp if vacant, or where Lands might be found vacant South of the River Alatamaha—

Granted. RESOLVED That on Condition only that a Grant or Grants be taken out for the said Land within seven Months from this Date and that the same be registered in the Register's Office of the said Province within Six Months from the Date thereof that his Majesty may not be defrauded of his Quit Rents the Prayer of the said Petition is granted—

Petition of Lachlan McGillivray & others for Land to be reserved for a Township.

Read a Petition of Lachlan M^cGillivray, John Rae, and George Galphin setting forth That the Petitioners of their own certain knowledge could assure his Excellency that many of his Majesty's good and faithful subjects of the Kingdom of Ireland would chearfully remove from thence and become settlers in this Province provided they could be furnished with Lands for that Purpose, That the Petitioners were perswaded the Importance of his Majesty's Colonies greatly depended upon the Number of useful Settlers; and, being animated with true Patriotism, the Petitioners had resolved by every Means in their Power to promote the good End of further Establishing this Province Therefore praying that there might be Fifty thousand Acres of vacant Land

laid out between the River Ogechee, Briar Creek, Buck Head and the lower Creek Path, in one or more Townships as should be thought most commodious (the great Creek running into Ogechee, or thereabout, to be the Center of such Township or Townships) for the Use and Benefit of the Settlers intended to be brought from Ireland by and through the Means and Interest of the Petitioners; to be reserved for three Years, and to be enjoyed under the usual Privileges of Townships in other his Majesty's Colonies, such as Exemption from Payment of quit Rents and Payment of Public Taxes of every Kind, for Ten Years from the Date of their respective Grants. And further praying that, in Regard the intended settlers were very poor, and in a great Measure destitute of the Means of transporting themselves hither and settling in such Manner as might render their Situation comfortable to themselves and beneficial to the Province, his Excellency would be pleased to recommend them to the Legislature as Objects equally deserving that Bounty which, from the Dictates of Humanity and Benevolence, as well as from wise and political Principles, had been extended to such his Majesty's subjects by other Governments—

Land ordered
to be laid out
and reserved.

ORDERED That the Surveyor General do cause to be surveyed and laid out, the outlines of Fifty thousand Acres of vacant Land as prayed for, to be reserved for two Years for a Township or Townships, And that the other Part of the Prayer of the said Petition be properly recommended.

His Excellency the Governor was pleased to make the following Order—

His Excellency
the Govr. Or-
der touching
surveye. of
Lands.

Whereas it hath appeared by some Plots returned that the Deputy Surveyors, have, in running out or surveying Lands upon Rivers, given a much larger Front upon the

River than is directed by his Majesty's Instructions. And it is apprehended that Frauds and Abuses have been committed by the Persons carrying the Chain at the Time of measuring Lands; so that a much greater Quantity of Land has been contained within the Lines of the Plots than was ordered by the Warrants of Survey or intended to be granted. By which Practices his Majesty is defrauded of his Rents and the Public of the Taxes. For Prevention whereof for the Future It is Ordered that no Deputy Surveyor do presume to run out or survey any Lands upon any River but according to his Majesty's Instructions, that is to say, one third of the Length of each Tract fronting the River and no more, and that no Plot be received or certified by the Surveyor General which does not appear to be so run. And It is further Ordered That for the future all Deputy Surveyors take care that the Person who carries the hindermost End of the Chain, (if a white Person) be first duely sworn before a Justice of the Peace, truly and honestly to acquit himself as a Chain Bearer, and that he will not knowingly commit or Assent to any Fraud in measuring the Land in which he may be employed about. and that the Surveyor General do forthwith give each Deputy an Instruction to that Purpose And It is further Ordered that if any Deputy Surveyor shall presume to survey any Lands or Rivers contrary to his Majesty's Instructions above mentioned, or shall be discovered to have surveyed Lands without having the Chain Bearer as aforesaid first duely sworn, or to have permitted or suffered any Fraud or Abuse in carrying the Chain, or in the Measurement of any Lands, That the Bond of such Deputy Surveyor shall be immediately put in Suit, for Breach of his Instructions and it is likewise Ordered: That all Deputy Surveyors do attend to take their Oath of Office before the Governor in Council. And It is further Ordered that in making any Surveys of Lands to the Southward of

the River Alatomaha due Care be taken not to run out or interfere with any Lines of Lands for which Grants are actually signed by the Governor of South Carolina unti'll further Orders. and that every Surveyor do report as far as may come to his knowledge what Lines they meet with, and in what manner the Surveys have been made of those Lands Granted as aforesaid: And It is Ordered That a Copy hereof be served upon Henry Yonge Esq^r Surveyor General, That he may Act therein accordingly—

ORDERED That a Copy of the above Order be delivered to the Attorney General that he may prepare a new set of Instructions for Deputy Surveyors—

His Excellency the Governor signed the following Grants

The following Instructions from the Surveyor General to his Deputies touching admeasuring of Lands were read and approved and are as follows viz^t—

Instructions to Deputy Surveyor

Instructions to the Deputy Surveyors read and Approved.

1st That before any Survey you shall (if you can conveniently) give timely Notice thereof to the Bounders on the Lands intended to be surveyed by you, so that they may then and there attend and that you desire the perusal of their Plats for your Guidance in the Survey; The Course of the bounding Lines you are to follow unless you find the marked Trees in the Field which you believe are referred to in the original Plat aforesaid (being thereon expressed) should vary from the Course of the Plat then you are to follow the marked Trees and where they are wanting to continue the same Course—

2nd You are to enter all Surveys of his Majesty's Lands by you performed in a Book, or different Sheets of Paper for that Purpose, so that you may to each Plat add the adjoining Tracts by you laid out in the different Parishes and Parts of this Province, with the persons Name, Date of Warrant, and Survey to be inserted on

each Tract, a Copy of such Entrys to be by you returned to the Surveyor General between the first Day of January and the first Day of March Yearly and every Year the better to enable him to form a General Correct Plan of the Province—

3^d You shall not permit any Person or Persons whatsoever to carry the Chain on the Admeasurement of any of his Majesty's Lands untill he or they be first duely sworn for that Purpose according to the Act of general Assembly in that Case made and provided—

4th You shall not undertake to Survey or lay out any of his Majesty's Lands for any Person before you have a Precept for so doing under my hand and seal and you shall not execute any Warrant of Survey to you directed after the Time limited for the return thereof is expired, and you are to use your utmost Diligence to make due return of your several surveys and Precepts to the Surveyor-General's Office at least within One Month of the Time directed for the return of the Warrant and Plat to the Secretary's Office—

5th You shall not on any slight pretence or Excuse (and unless you are really prevented by high Rivers and Swamps very deep in Water) return any Plot or Plots of the Kings Lands by you surveyed for any Person without measuring and marking every Line of such Tract or Tracts except on adjoining Lines that you know to be already marked and measured and on such sides where Rivers, Creeks, or public Roads form natural Boundaries, the true Course and form thereof you are near as possible, to insert on each Plot where you have different adjoining Tracts to survey for one Person, in that Case the dividing Lines may be omitted without your Employer desires them to be marked and measured; and you are not to execute any Warrant in part, unless

you are prevented surveying the whole by Boundary Lines of former Surveys or where it is upon an Island which does not contain the supposed Number of Acres—

6th That on every Plat by you returned you are to express (to the best of your Judgement) the figure of the Swamps and make a considerable Number of Station Trees on each Line and corner Trees or Stakes 3x at each Angle which you are to insert on the Plat mentioning those marked by you (new marked) and those that by you are double marked (old and new marked) and no Corner or Stations are to be inserted by you unless made or seen by you except such as are expressed on that bounding Line in the Authentick Plat and that you verily believe them to be in the Field having found the Corner with one or two of the stations agreeable to the said Plat Also you are to insert in their proper Places what Runs of Water Foundations of Tarr Kilns and noted Paths or Roads the lines cross being durable Marks—

7th In all Surveys to be made by you, you are to take Care That the Breadth of each Tract of Land on the Banks of any River do not exceed one third of the Length of such Tract, and that the Length of such Tracts do not extend along the Banks of the River, but run back from the River, and Inland Tracts you shall lay out in exact Squares, with Sides and Angles equal, if bounding Lines of former Surveys do not prevent you from so doing—

8th All Plats by you surveyed and returned into the Surveyor General's Office are to be just and true in the Quantity contained, Figures, Corners, Stations, Marks and Boundaries, with the Quantity of Swamp, Corn Land and barren Land, to be specified on each Plat to the best of your judgement, the Plats to be laid down by a proper Scale, also the Bounders Names with the Course and Distance of each Line to be mentioned along the said

Lines the Parish where and that it was vacant at the Time of the Survey are to be mentioned in your Certificate which is to bear even Date with your Endorsement on the Warrant being the Day whereon the Survey was finished—

9th That in making any Surveys of Land to the Southward of the River Alatamaha you shall take due Care not to run out or interfere with any Lines of Lands for which Grants are actually signed by the Governor of South Carolina untill further Orders, and you are to report to me as far as may from Time to Time come to your knowledge in the Course of your Surveys what Corners and Lines you meet with and how far the same appear to be compleat or Imperfect and in what manner the Surveys have been made of the Lands granted as aforesaid whether agreeable to the usual Instructions or not.

10th Upon Application of any Deputy Surveyor, you are to let him have a Copy of your Field Works, Plat or Plats of Lands surveyed by you, for his Assistance and to prevent confusion in any survey that he is engaged in, of Lands adjacent to those surveyed by you—

11th You are to record these Instructions in the Secretary's Office within the time prescribed by Law—

Given &c—

Letter from
the Lords of
Trade respect-
ing the Silk
Culture read

His Excellency the Governor laid before the Board a
Paragraph of a Letter to him dated 24th December 1764
received from the Right Honourable the Lords Commis-
sioners for Trade and Plantations respecting the silk Cul-
ture in this Province as follows viz^t

It only remains for us to give you our Opinion and
Direction in respect to the Silk Culture which we con-
sider as an Object of great Importance and deserving
great Attention and though we are fully convinced,
seeing it in this Light, that it ought to be and will
be encouraged by Public Bounties and national Sup-
port, Yet we are equally convinced that the present Plan
of Encouragement neither has answered nor can in
its Nature answer the Public Expectations, by extend-
ing this beneficial Culture; we wish however, before
we decide upon any other Mode of Encouragement (in
which the Merit and Service of M^r Ottolenghe will al-
ways be considered and properly rewarded) to receive
the fullest Information upon every Circumstance re-
lative to this Object, and it was with this View that we
did in our Letter to you of the 29th May last, express
a Wish to have every Information from the Province

that could be procured in the mean Time it will be absolutely necessary in order to avoid the Inconveniency and Embarrassment that would arise from any further Exceedings upon the Grant of Parliament, that the present Expence should be lowered which we conceive may be done with the greatest Certainty and with the least Hazard of Inconveniency or discouragement by a Reduction of half the Price paid at the Filature upon the Georgia Cocoons, and as we see no Reason why a higher Price should be paid upon the Cocoons raised in Georgia than upon those raised in South Carolina, we point out this Method to you, which you will take the proper Measures with the Advice of the Council and M^r Ottolenghe to carry into Execution; unless it shall appear to you and them that there are strong Reasons which cannot have occurred to us against making so large a Deduction in the Price—

He also acquainted the Board that M^r Garth the Kings Agent for this Province had not then in his Hands above two hundred Pounds to be applied in Aid of the Bounty that might be granted by Parliament for the Encouragement of the silk Culture for the present Year and M^r Ottolenghe attending and the matter being taken into serious Consideration it was the unanimous Opinion that the Silk Culture was in a flourishing State and that there seemed to be a proper Spirit and Disposition in the People for advancing that Culture And were all clearly of Opinion that if the Price to be paid for the Cocoons was to be reduced from three Shillings to One shilling and six pence it would strike too great a Damp and discourage most People (especially those of any Property) from going upon it and reduce the Culture to a Quantity unworthy the public Attention Whereby the Money heretofore expended for the Introduction and support of that most valuable Commodity would be rendered ineffectual and the Intention of Parliament defeated On which Considera-

tions they unanimously advised that the Price should not be lowered to one Shilling and six pence but that two Shillings and three pence $\frac{7}{8}$ lb should be paid for all the Cocoons raised in this Province and brought to the Public Filature during the present Season. And then M^r Ottolenghe withdrew—

Information
given his Ex-
cellency touch-
ing a Resurvey
made of Lands
to the South of
Alatamaha for
Stephen Bull of
So. Cara.

After which Henry Yonge Esq^r his Majesty's Surveyor General of Lands was sent for who acquainted His Excellency and the Board that he had been informed one Elijah Brazeal was engaged for M^r Stephen Bull of South Carolina to go and resurvey a Tract of seven thousand five hundred Acres of Land on great Satilla River to the Southward of the Alatamaha River in this Province and to mark the Lines and Station Trees thereof the same being Land heretofore granted the said Stephen Bull by the Governor and Council in South Carolina And M^r Yonge being asked whether the said Brazeal was now one of his Deputies answered that he was not; Which Tract of Land being one of those represented as an imperfect Survey and run or surveyed only in the Front upon the River It is therefore ordered That the Matter be referred to his Majesty's Attorney General to consider and report how far and in what manner any Person or Persons not being authorized by his Majesty's Surveyor General of Lands in this Province who may presume to run Lands or to perfect any such partial Survey as M^r Bull's is said to be by running Lines not before surveyed or run, and marking Station or other Trees is or are liable and may be proceeded against and punished—

Order to Treas-
urer for Paymt.
of Mr. Zouber-
buhler's Salary.

ORDERED That the Treasurer do pay unto the Reverend Bartholomew Zouberbuhler Rector of the Parish of Christ Church the Sum of Fifty Pounds sterling agreeable to an Act of the general Assembly of this Province intituled an Act for stamping issuing and making Current the Sum of seven thousand four hundred and ten Pounds

sterling in Paper Bills of Credit; which said Act provides the annual Sum of Fifty Pounds Sterling to be paid for the Maintenance and convenient support of a Minister for that Parish—

Act from England, in what Manner it might be neces-
sary for him to Conduct himself on the Occasion— The
Board were of Opinion that, in Respect of Warrants and
Grants for Lands, which were Matters proceeding im-
mediately from the Bounty of the Crown, none should
be signed or passed but a total Stop put thereto And as
to let-passes for Vessels, and other Business relative to
Navigation, that on the Parties requesting it the same
should issue as usual, with a special Certificate subjoined

The Minutes of Council of the 1st 17th 29th and 31st
October last were read and approved—

His Excellency laid before the Board the Affidavit of John Burns taken before Edward Barnard Esq^r relative to three white People having been killed by some Creek Indians; and desired their Opinion of the Steps necessary to be taken therein—

His Excellency lays before an (sic) Account of three white People having been killed by the Creek Indians.

The Board, on Consideration, advised his Excellency to state the Matter fully to the Superintendant of Indian Affairs (if Opportunity offered) who was shortly expecting to hold a Congress with those Indians near S^t Augustine, when the same might be fully and Properly discussed— And if that could not be done, the Procedure they were of Opinion should be agreeable to the Tenor of the Treaty lately made and subsisting between those Indians and Us, and Satisfaction in Consequence thereof, be demanded of them for the Murders—

The Board advises his Excellency to state the Matter to the Superintendant of Indian Affairs &c.

His Excellency laid before the Board a Petition of divers Persons settled on Coonochee River in this Province complaining of a Nest of Villains said to be harboured by one John Middleton in those Parts and praying Relief; And the same being taken under Consideration His Excellency proposed that Lieutenant Baillie, stationed at Fort Barrington be ordered to reconnoitre those Parts, and to apprehend any of the Persons mentioned in the said Petition or any other suspected Persons that he may find so harboured, and put the Vagrant Law in force against them, unless they shall be charged with any other particular Crime and if so, that they be committed to Prison: And that M^r Baillie be furnished with a Copy of the said Petition All which the Board approved of—

His Excellency also laid before them a Petition of Settlers on Coonochee complaining of a Nest of Villains &c.

And proposed that Lieut. Baillie be ordered to reconnoitre those Parts &c.

The Board Approbation.

Upon reading a Certificate of Audley Maxwell, John Elliott and Francis Lee Esq^{rs} Justices of the Peace for the Parish of S^t John in this Province in Favour of William Ducker The Board advised his Excellency to

Permit to Wm. Ducker to barter with Indians for 6 Mos.

give the said William Ducker a Permit in Writing to barter with the Indians travelling in that Part of the Settlements for the Term of six Months under such Restrictions as his Excellency should judge expedient—

His. Excellcy.
also laid before
the Bod. an Ac-
cot. of the Mur-
der of a White
Man and an In-
dian by Ne-
groes.

His Excellency laid also before the Board two Letters he had received from Lieutenant Baillie touching the Murder of Durham Hancock a White Man and an Indian Fellow, And of there having been three runaway Negro fellows and to Negro Wenches apprehended and
(sic)
in Custody who had confessed the Murders—

And proposed
sending Direc-
tions to Lieut.
Baillie for tryal
of the Negroes
&c.

And proposed that Directions be sent to M^r Baillie to cause the said Negroes to be tried for the said Murders conformable to the Directions of the Negro Law, and on Conviction that Execution of them be in various Parts of the Province, as an Example; And to invite the Indians to see the Executions, and acquaint them that the Invitation is in Consequence of the late Treaty made at Augusta Which was approved of by the Board—

The Boards
Approbation.

His Excellcy ad-
vises with the
Bod. as to
Measures for
securing the
Stamp Paper
&c.

His Excellency after having largely expatiated on the Tumults of late so general in the neighbouring Provinces and of the Dislike that had also been shewn here in Respect of the Stamp Act, and Officers appointed to put the same in Execution, and the bad Consequences attending such disorderly Proceedings; desired the Opinion of the Board, in case such Officer and Paper should arrive for this Province what Measures were Proper for him to take in Order to secure the same from Insult or being destroyed—

Opinion that
the same shod.
be lodge in the
(sic)
Guard House,
and a Guard
placed.

The Board were of Opinion that the Paper should be lodged in the Guard House as a proper Place and there protected by such a Guard as in his Excellency Power
(sic)
to place for that Purpose And also that his Excellency

they apprehended could only assure the Stamp Master (in case of his applying for Protection) of all the Assistance in his Power to give him—

Proclamation
ordered to issue
forbidding
Riots &c.

Then his Excellency asked the Opinion of the Board whether he ought not, or they did not think it his Duty as Governor (Affairs respecting the Stamp Act being so situated here) to issue a Proclamation forbidding all Riots, Routs and tumultuous Assemblies, And ordering and commanding all Magistrates and Peace Officers to be vigilant and active in their respective Duties—

The Board were unanimous in Opinion that his Excellency could not but issue such Proclamation And advised the same Accordingly—

His Excellency acquaints the
Board, that he
had read.
Stamp Act.

His Excellency acquainted the Board that agreeable to the Advice given him on the thirty first of October last he had continued to sign Let-passes for Vessels, and that Business respecting Navigation had been hitherto done by the proper Officers with a special Certificate

subjoined setting forth that no Stamp Paper or Stamp Officer was in the Province, nor had his Excellency received the Act laying a Stamp Duty in America: And also acquainted them that he had now received the Stamp Act in a private Way and thought it his indispensable Duty to take the Oath thereby required to be taken by the Governors of the british Plantations for carrying the said Act into Execution, and to regulate his Conduct agreeable to the Directions of that Law: And that he had ordered four Abstracts of the said Act to be made, the one for the Chief Justice, one to be lodged in the Secretary's Office, One with the Collector for the Use of the Custom House Officers in Savannah and another for the Custom House Officers at Sunbury that they may know what that Law is and judge how to conduct themselves. After which his Excellency took the Oath as directed by the said Law—

Ordered four
Abstracts of
the Acts to be
made out.

And his Ex-
cellency took the
Oath directed
thereby.

His Excellency acquaints the Board that the Stamp Paper was arrived &c.

His Excellency acquainted the Board that his Majesty's Ship Speedwell was arrived in the River with the Stamp Papers on Board for this Province and adverted to the Minute of Council in that Behalf made on the twelfth of November last in Respect of securing those papers from Insult or being destroyed and lodging them in a safe Place And further acquainted them that he had been waited upon last Night by several Gentlemen as deputed by the Inhabitants of the Town in general who had met in the Afternoon on hearing of the Arrival of the Vessel, and in the Name of the People declared a Concern that they should lie under any Imputation or Suspicion of a Design to seize upon or destroy those Papers and in the strongest Manner assured him that they never had such intention nor had at that Time And that whatever Threats might have been thrown out must have been by loose, idle Persons and not by the People of the Town, who on the contrary had empowered them to assure his Excellency that if he desired it they would receive and deposit the Papers in any House or Place

Stamp Paper
to be lodged in
Care of the
Commissary.

in the Town he would please to Name where they might remain with the greatest Safety— And thereupon desired the Opinion of the Board in Respect of the afore-said Application how far it might be adviseable to alter the Measures agreed to on the said twelfth Day of November The Board maturely considering the Matter were of Opinion that his Excellency might rest perfectly satisfied with the Assurances given him and that the Commissary might be ordered to receive the Papers and lodge them in the Store under his Care where the Indian Presents are deposited—

His Excellency stated the following Case on the Stamp Act—

The Law is declared to be in Force and take Effect from and after the 1st Day of November 1765 and the Governor is required before the said 1st Day of November to take a solemn Oath to do his utmost that all and

Case stated on
the Stamp Act.

every the Clauses contained in the said Act be punctually and bona fide observed according to the true Intent and Meaning thereof so far as appertains to the said Governor under the like penalties, forfeitures and Disabilities on neglecting to take the Oath, or neglecting to do his Duty accordingly, as are expressed in the seventh and eighth of William the Third—

The Governor has taken the Oath required, and the Collectors received the Law from the Commissioners of the Customs on or about the 30th of November—

By the above Law every Bond &c is to be upon Stamp't Paper so is every Cocket or Clearance and so is every pass port or Let-Pass and it is declared in the Body of the Let-Pass that Permission is given to the Captain to sail and depart this Province he having entered and cleared this Port according to Law—

Memorial of the
Merchants.

The Stamp't Paper is arrived, but no Officer yet come to distribute the same And the whole Body of Merchants in the Province have given in a Memorial to the Governor setting forth "That they were interested in many Vessels then in the Province some of them partly loaded and others whose Cargoes were near ready to ship all which could be dispatched and might in a short Time be got to Sea were they permitted to enter out and be cleared in the Custom House"—

"That it was plain in some of the West India Islands and in some of the Provinces on the Continent where no distributors of Stamps were arrived and in some Cases where even those arrived would not act the necessary and proper Clearances for Vessels were notwithstanding given"—

"That a detention of the Produce of the Province in

many particular Instances liable to Damage and Decay would greatly injure the private Interest of the Memorialists and be attended with a general inconvenience to their Mother Country"—

Memorial of the
Masters of
Vessels.

"That they begged leave to observe to his Excellency that no distributor of stamp't Paper was then in the Province and therefore humbly hoped that his Excellency would take the Premises under his serious Consideration and grant them Relief therein so far as might relate to any Vessels that might be ready to proceed on their respective Voyages before such distributor arrived"— And the Masters of most of the Vessels in Port have also given in a Memorial setting forth "That the several Vessels under their Command were some of them in part loaded and others ready to take in their respective Cargoes which were also provided and might be immediately ship't could they be permitted to enter and clear out their said Vessels"—

"That the Vessels under their Charge were lying at a very considerable daily Charge which must in the end prove ruinous to the concerned and in some Instances should it be of long continuance it would be impracticable to discharge the same as it might exceed even the Value of the Vessel"—

"That exclusive of the particular Circumstances of Distress to them and the owners of their Vessels, a stagnation of Trade unless absolutely necessary and expedient must be attended with general Loss and inconvenience"—

"That by some Clearances lately produced in this Port it appeared that as well in the West Indies as the Continent where no distributors of Stamps were arrived or did not Act the necessary Business of the Custom House

had notwithstanding been carried on as usual Therefore praying that his Excellency taking their Situation under serious Consideration as also that no distributor of stamp't Papers was in the Province would please to do therein what should seem necessary and proper as well as possible for their Relief at least the Relief of such as might be ready to proceed to Sea before such distributor might arrive"—

Questions put
to the Bod. on
the aforesaid
State of the
Case and Me-
morials.

And on due Consideration had of the said Act of Parliament state of the Case, and Memorials the following Queries or Questions seem to arise which his Excellency accordingly put to the Board viz^t Quere 1st whether notwithstanding the said Act of Parliament which has been received by the Officers of the Customs here from the Commissioners of the Customs in Great Britain for their Rule and Guidance, the Governor can, lawfully or consistent with his Oath and Duty direct or authorise the Officers of the Customs here to transact the Business of their Offices on unstamp't Paper as heretofore?

The Board were unanimous in Opinion that his Excellency consistent with his Oath and Duty could not direct or authorise the officers of the Customs to transact their Business on unstamp't Paper. Quere 2nd Whether the Governor can lawfully or consistent with his Oath and Duty sign any Let-passes on Paper not stamp't if Cockets or Clearances are produced to him dated since the said 30th of November or 1st of November upon Paper not stamp't—

The Board were unanimous in Opinion that his Excellency could not sign any Let-passes on unstamp't Paper—

Quere 3^d Whether the Governor by Virtue of the Powers and Authorities to him given and granted by

his Majesty's Commission and Instructions should (as the Case is circumstanced) in Order to relieve the Memorialists appoint a Person to distribute the said Stamp't Papers until the Arrival of an Officer from Great Britain appointed pursuant to the Direction of the said Act of Parliament If he be applied to and requested so to do?

Five of the Gentlemen were of Opinion that his Excellency by Virtue of the Powers and Authorities given and granted him by his Majesty's Commission and Instructions could not appoint a distributor of the Stamps for the Time being—

A new Commission of the Peace ordered to issue.

ORDERED That a new Commission of the Peace do issue and that John Francis Williams Esq^r be inserted therein one of his Majesty's Justices for the Parish of S^t Paul, Jonathan Cochran and William Le Conte Esq^{rs} two of his Majesty's Justices for the Parish of S^t Philip; and John Martin William Donnom and Parmenas Way Esq^{rs} Justices for the Parish of S^t John—

The Jurisdiction of the Justices of St. Andrew's Parish extended.

ORDERED That the Jurisdiction of the Justices appointed for S^t Andrew's Parish be extended in the said Commission as far to the Southward as the River S^t Mary's—

That the Secretary do prepare the said Commission accordingly—

Accounts audited.

Some Accounts relative to the Courts of Oyer and Terminer and contingent Expences were laid before the Board audited entred in the Book of Accounts kept for that Purpose and ordered for Payment—

Proclamation
ordered to be
issued for conven-
ing the general
Assembly.

His Excellency acquainted the Board that he had thought fit to call them together on the Advices he had received of the great Damage done to the Crops in general in this province by the late Floods and of the Prospect there was of a great Scarcity of Provisions And desired their Opinion how far a Prohibition upon the Exportation of Provisions might be expedient at this Time? The Board were of Opinion that a Stop should be put to the further Exportation of Provisions from hence for a limited Time and advised his Excellency accordingly Whereupon his Excellency ordered a Proclamation to issue for convening the general Assembly on Monday next being the sixteenth Instant, and that the Secretary do prepare the same—

His Excellency having produced to the Board the Act
of Parliament of Great Britain for repealing an Act lately
passed for laying certain Stamp Duties in America; af-
terwards communicated the same to the several Officers
of the Crown, then attending by his Excellency's Order,
directing them to conform thereto and regulate them-
selves accordingly—

Whereas at the several Council Days held on the first
Tuesday in every Month since the first Day of November
1765 various Petitions for Land have been presented and
sundry Orders of the Governor in Council for Warrants
of Survey to issue have been from Time to Time returned
into the Secretary's Office but no Warrants hitherto ap-
plied for It is this Day Ordered notwithstanding the
Lapse of Time that the Warrants of Survey so as afore-
said heretofore ordered do issue to the Persons intituled
to them respectively And that a Memorandum be made at
the Foot of each Warrant signifying on what Council
Day the same was so ordered—

Memorial of
Surv. genl.
touching the
many Plats of
Land remain-
ing in his Office Read a Memorial of Henry Yonge Esq^r Surveyor General of the said Province which Memorial was also read at the last Board and the Order made thereon was deferred for Approval until this Day setting forth that in Consequence of former Memorials presented to his Excellency and his Predecessor in Council lists of divers elapsed Plats remaining in the Surveyor General's Office (many of them a number of Years) had been repeatedly published in the Gazette with Notice that his Excellency after a limited Time would grant such elapsed Tracts to any Petitioners that should be approved but very little Regard had been paid to the said public Notices That many elapsed Plats were Pine Land surveyed solely for

the Lightwood and Timber thereon and it being a known Practice in the neighbouring and other Provinces to work off the Timber and give up the Land without applying for a Grant the Memorialist was of Opinion the same Practice would prevail in Georgia That Plats being permitted to remain any length of Time in the Surveyor's Office might be attended with future Hardships and Inconveniences to those to whom they were ordered even on obtaining a Grant for Advantages had and might be taken from the published Lists by Persons applying for large Warrants and including on the Survey smaller Tracts not settled within the Lines; and under disguised Representations elapsed Plats had been obtained as Lands never surveyed and the Grants passed unknown to any Person but the employer of the Deputy Surveyor which Practice rendered hazardous the regranting elapsed Plats without a survey of the said Land That it was a common Practice to sell Lands upon the Survey and return of the Plat only thro' two or three different hands to the manifest detriment of the perhaps ignorant Purchaser who in future finds the Land granted to another That there was in the Surveyor General's Office upwards of three hundred certified Plats and the Time directed for the return of them in to the Secretary's Office expired The Fees due thereon at least two hundred Pounds and the clear annual Perquisites recived for two Years past had not exceeded Fifty Pounds to which might be added the probable remaining Inconvenience of a long Delay in paying the Fees of his Office on re-granted elapsed Plats — The Office of the Memorialist being the first remove for Grants of Land he begged leave to represent to his Excellency that the Means already pursued by Directions of his Orders in Council to prevent the obvious injurious Practices to the Crown and the Delay and Neglect of paying the Officers Perquisites who had the Honour to act under his Majesty's Appoint-

ments had proved ineffectual And therefore humbly submitted the Consideration of those continued Hardships to his Excellency and their Honours Praying they would be pleased to grant such Relief as to them should seem proper—

Which said Memorial and Order thereon being now
Order made on
the said Memo-
rial. again taken taken under Consideration It is Ordered that
